

Mastering Air Conditioning.

Talking **LoRa™**

Smartlog is the first company to talk LoRa with Air Conditioning systems. Our battery powered Plug&Play solutions help creating value with data. We visualize your sensor data on our interactive Smartlog DASHBOARD.

Parameters:

- Setpoint
- Mode
(Heating, cooling, ventilation)
- Fanspeed
- On/Off

Notifications

- Error Code

LoRaClim
Air conditioning connect

**Gain actionable sensor insight
through continuous analyzing**
